Greater Pollok

Guidance notes for completing Staying In proposal form

Thank you for submitting an application to the 'Staying In' Fund for Greater Pollok. We welcome your project ideas which will help us to test new ways to help stop people losing their homes in your area.

Please read the application thoroughly and give us as much information as you can about your proposed project.

If you would like support completing the application, we are happy to help. Just drop us an email:

stayingin@homelessnetwork.scot

Applications will be scored by a panel of people who are all committed to ensuring the best use of this fund in Greater Pollok.

Some useful guidance that will help you make the most of your application.

Collaboration

We think that the best outcomes happen when people work together. Consider ways that you could partner with other groups or organisations to give your project idea the best chance of success. Applications that show collaboration will be considered favourably.

Match funding

Do you have access to other funding or income that could be used alongside this fund? This might mean your project could reach more people or be available for longer.

Sustainability

The most successful bidders will be able to demonstrate that they have considered the impact of the project in the short term but also in the future. Projects that can really evidence impact are more likely to be supported long term so please think about this when completing your application.

Sharing Learning

An exciting part of this fund is the ability to test out different approaches to see what works. This works best when we are able to share as much learning as possible; including what hasn't worked. Are you willing to share your learning in an honest and transparent way? Tell us what you can about how you will do this.

We look forward to reading your application – good luck!
