

keys to the Community

Mapping Community Services in North West Glasgow

2021-2022

Keys to the Community was a community led and designed project. The project was delivered by local people – Community Champions, who shared their life and local experience to work alongside members of the community in North West Glasgow.

Community Champions supported people to take advantage of what was available locally to combat social isolation and loneliness and promote connectivity within the local community and wellbeing.

The work of Community Champions led to:

- People feeling less isolated in their community
- People feeling part of their local community

Quotes from Community Champions

“ I got involved in this project because I have been isolated before and understand the impact it had on my mental health”

“local people know what’s needed in their local area”

“I had lived in this area for years before I felt part of the community, so I hope I can help people settle in by promoting what’s going on and all the good things we have”

“ its important to promote the good things this area has to offer, I’m proud to be a part of this community”
